Register: call Jan 239-472-2155. office@sanibelcommunityhouse.net

See: www.semmelmanenergy.com; Sanibelcommunityhouse.net

Description: Chezzy, Karen’s Golden Doodle, will enable Karen and Valerie to show how to balance energies and massage sore tight muscles or help align the body. Animals have meridians just like humans, and their organs, muscles and systems are comparable. Observe immediate shifts in Chezzy as his systems are balanced and relaxed. Learn where the navel and 3rd eye are located; how to cross his energies; how to do the 4 thumps to boost energy and help him be grounded; how to make space in joints; how to provide immediate relief under stress by sedating the meridian controlling stress; how to do a spinal flush to get energy moving from head to tail (which impacts the nervous system immediately as well); plus much more..... Valerie will demonstrate basic massage tools for your animal to provide immediate and comforting relief from sore muscles or misaligned muscles. If your pet has spasms in parts of its body, you will see how to assist in promoting calmness and relief to these areas. As a canine rehab specialist, Valerie has worked with many pets for over 9 years, ending with their welcome licks for providing relief.

Learn tools to provide care and healing for your pet with Energy Medicine and Massage in this FUN, interactive and useful class.

BENEFITS for you and your pet:

- **Learn EEM tools for pets for grounding, balance, coordination, boosting energies, joint relief, releasing trapped energy, reducing stress and so much more**
